Subject: EPCOR...

ORIGINAL

The 2nd of 3 water rate increases is now in effect for Epcor customers, including myself and the area I live in, Cross River. Homeowners have seen water bills of \$200.00 this summer. Many feel Epcor incorrectly charges waste water rates for water that goes into the ground not into the sewer pipe. New home building in the valley has turned around, increasing the number of customers for Epcor. Please, review the need for further rate increases, re-examine the approved 3rd increase.

Thank you for your time regarding this issue.

Sincerely,
Fran Noe
